Message

Dear Governor Cooper.

Please reconsider your decision to approve the Atlantic Coast Pipeline. It is a project that portends much risk for NC, and much gain only for the fossil-fuel industry. We need to move aggressively toward locally-generated wind and solar power, for our economy, for jobs, and for our children's safe habitat in the coming years. Pouring more money into a now-dangerous and soon-to-be-passé industry is not wise or safe. Thank you for your consideration.

It was a pleasure to meet you last October at the home of Elisabeth and Todd McGowan. And thank you for your most gracious follow-up note.

-- Cathy
